Your Guide to Tele-Interviews

Irish Life

What is a Tele-Interview?

A Tele-Interview is an interview conducted over the telephone by a nurse who will gather details of your health and medical history. All MorganAsh Tele-interviewers are qualified & experienced nurses in order to ensure that the interview will be conducted in a confidential and professional manner.

These nurses will ask you a series of questions about your health, lifestyle and your immediate family medical history. The duration of the interview will vary greatly depending on your answers but you should allow at least 30 minutes for this call.

Why are you being interviewed?

To offer our customers the best possible terms for their protection benefits, it is essential that a clear understanding of your present state of health and any conditions you may have suffered in the past is obtained. This information is used in our risk assessment, prior to considering your levels of cover.

Please accept our assurances that the information you provide will be treated in the strictest confidence and only used in the assessment of your application.

Your guide to Tele-Interviews

To process your application as smoothly and as quickly as possible, Irish Life can arrange for a specialist nurse to call and interview you regarding your health.

You do not have to do anything; our specialist partners MorganAsh will contact you to arrange an interview within the next few days. If you are called at an inconvenient time, they will be happy to arrange a more suitable time which is convenient for you. Please note that all calls will be recorded.

What do I need to prepare?

To prepare for your interview, please take some time to gather the following information and have this to hand when MorganAsh call:

- Any medication you are currently taking (including the name and dosage).
- Any past or present medical condition suffered (other than very minor ailments, such as the common cold).
- Any tests or investigations, e.g. blood pressure, cholesterol tests. It would be helpful if you could phone your GP or whoever did these tests prior to your interview, to get the results.
- Details of any serious condition, such as cancer, heart attack, stroke, suffered by a member of your immediate family (your mother, father, brothers or sisters, or half brothers and sisters).
- We will ask you for your height and weight. If you do not already know your weight, please try and weigh yourself prior to the interview.

If you are not sure whether some material fact is important, then it is always best to mention it. The interviewing nurse will assist you with any questions you may have.

How will I be contacted?
