Important note – Telling us about relevant information

Please read the information below carefully – ask your financial adviser if you have any questions.

- When deciding whether to insure you and when setting the terms and premium, we will rely on the information you have given us. You must answer all questions that we ask honestly and with reasonable care. Where we ask you to answer a specific question, the subject matter of the question is material to the risk we are undertaking or the calculation of the premium or both.
- If your answers are not true and complete, we may be entitled to void the policy without return of premium, repudiate liability, treat the policy as if it had been entered on different terms, or limit the amount paid on foot of the contract of insurance. You must tell us all relevant information when answering all of the questions. If you are not sure whether something is relevant, you should tell us anyway. We may also contact you if we need to ask you for further information on your answers or as part of any subsequent claim.
- We will rely on what you tell us and you must not assume that we will automatically confirm with your GP or any other doctor any information that you provide. If relevant, you can consult your GP about the questions on this form, but we cannot cover the cost of your doctors' time. You can provide any highly confidential information direct to our Chief Medical Officer in a sealed envelope and give this to your financial adviser. In these circumstances you must refer to this information when answering your health questions.
- You do not need to tell us about and genetic test (that is, analysis of chromosomes, DNA or RNA to detect genetic abnormalities in individuals) which you may have had. However, you must, where required by our questions, tell us if you are having treatment for or experiencing symptoms of a genetic condition. We may also ask you to give us full information about your family history, including all genetic conditions.
- You must tell us in writing about any change in your answers to any of the questions in this form (for example, in relation to personal medical circumstances or family history or dangerous pursuits you take part in) between the time you apply for cover and the date your application is accepted. Failure to do this may result in a claim being refused.
